

Make your brand reach its target every time.

FLEXcon PLUSHprint™ film creates a new tactile dimension that reinforces brand retention and invites a closer look and feel.

FLEXcon self-adhesive materials can simulate the look of more expensive materials, like metal and wood, to create over-the-top displays on a tight budget.

Reach out and touch shoppers with FLEXcon PLUSHprint™ self-adhesive film.

Forward thinking brand marketers and ad agencies understand that traditional advertising vehicles don't always reach their target. So they're using FLEXcon PLUSHprint™ film to create unique at-retail messages with texture that really draws shoppers in. PLUSHprint™ adds

a second sensory experience to graphics that's just the right touch for lifting sales even in a difficult economy.

Call us. We'd love to help you expand your branding efforts beyond the expected for results you can feel.
