

Give your brand the exposure it deserves.

FLEXcon self-adhesive materials provide packaging options that go way beyond the ordinary to capture shoppers and drive more sales.

FLEXcon self-adhesive materials let you create an integrated marketing campaign by combining several applications for an impact that's more than the sum of its parts.

See it all come together with Clinghesive® materials provided by FLEXcon.

Resourceful brand marketers and ad agencies realize that innovative packaging strongly influences buying decisions. So they're using Clinghesive® to give their packaging a clear "cling" surface that can hold CDs, DVDs, and gift cards without the use of hubs or die cut pockets. Clinghesive®

lends a coolness factor to brand promotion that leads to a purchase instead of a pass, even in a tough economy.

Call us. We'd love to help you expand your branding efforts into whole new creative dimensions.
