

High-Quality Furniture and Storage Solutions for Art and Architecture Schools.

Making furniture and storage work, all over campus.

For Art and Architecture schools, the classroom experience is key to student success. It's critical to provide not only the best educators, curriculum and artistic challenges, but also a professional looking atmosphere for the students. Lista manufactures furniture and storage solutions that deliver the high-quality performance students need, while adding to the contemporary, well-organized environment that schools want. We are experts at customization, making our solutions fit your unique requirements. The result is a contemporary, organized and aesthetically-pleasing environment that impresses students, parents and faculty.

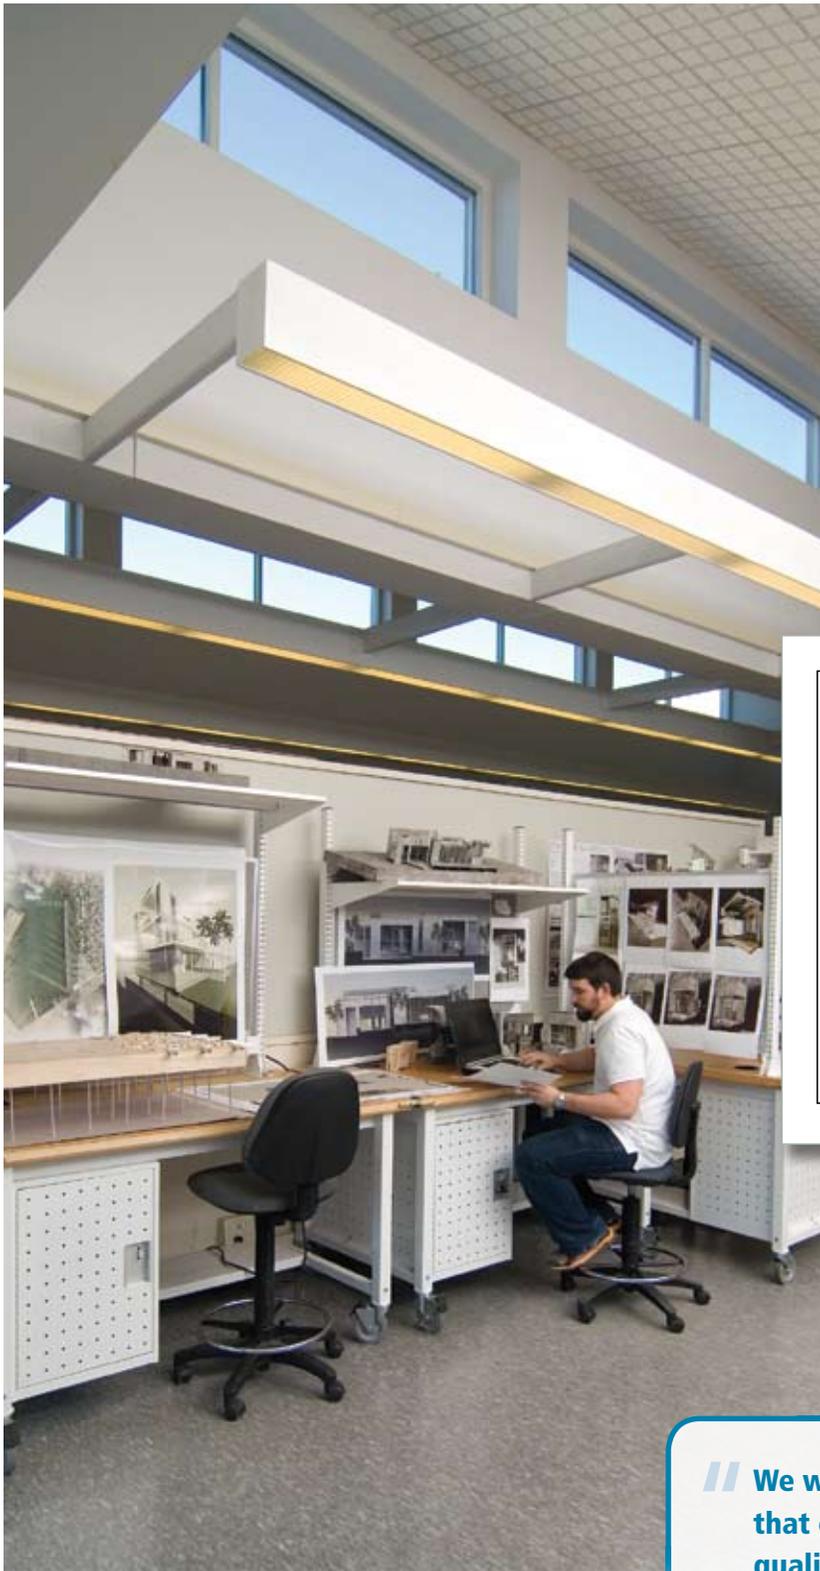

Unique solutions for every department.

Lista solutions are designed to be extremely modular, adapting to the changing needs of the classroom environment. Whether you're in Architecture, Fashion Design, Photography or Ceramics, Lista furniture and storage solutions fit the need – beautifully. Whatever you want, from mobile and stationary solutions, to butcher block and stainless steel tops, we'll build it for you with quality and durability.

// Lista worktables are extremely strong and versatile. Our classrooms change quite often, so we have to repurpose furniture. Lista's products adapt beautifully and hold up like no other furniture we've ever had. //

*Michelle Maynard
Director of Facilities Management & Campus Services
School of the Art Institute of Chicago*

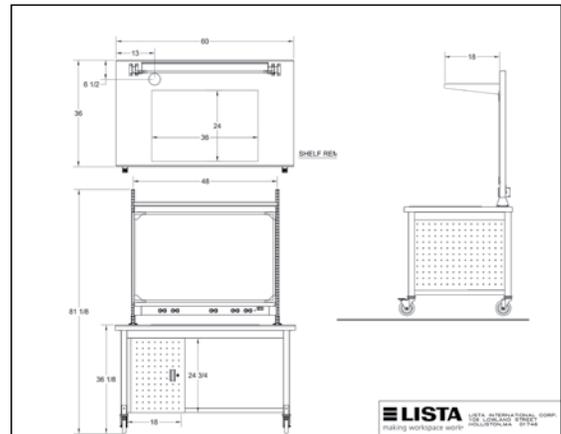

Customized workstations for architecture students are mobile for easy repositioning and cleaning. They feature integrated electrical power and an above-the-worksurface accessory system to accommodate drawings and plans. There's even a top shelf for convenient storage.

Your customized solution starts with ListaWorks™.

ListaWorks™ is how we make furniture and storage solutions work for you. It's our process for providing the highest-quality, custom-configurable solution that precisely fits your unique classroom requirements. We have the design tools, consulting skills and experienced staff to optimize your space and usage, now and in the future.

ListaWorks™ starts with listening – because we really want to understand your furniture and storage needs. Then we use our design expertise and custom solutions capability to optimize your classroom's unique footprint. Next, we render the solution so you can see exactly what you'll get. Finally, we build it with famous Lista quality and durability. That's making Lista work for you.

// We were looking for a workbench provider that could come through in three key areas: quality, custom design expertise and on-time delivery. Lista met the challenge. //

*Ken Lambla, AIA
Dean of the College of Architecture
University of North Carolina at Charlotte*

The art and architecture of Lista.

Lista mobile worktables, storage cabinets, student lockers and workbenches put ordinary school and office furniture to shame. We'll customize flexible storage and durable furniture solutions that bring consistent appearance and efficiency to every part of the classroom.

LEFT: Lista mobile worktables roll on heavy-duty lockable casters. Their large circumference makes moving tables to reconfigure classrooms a breeze.

BELOW: Most table legs just can't stand up to years of classes. They bend, they buckle, they fall apart. But Lista table legs are made of heavy-duty, powder-coated steel to withstand one punishing semester after another.

LEFT: Lista worktables and workbenches are available with a variety of worksurfaces. For example, our butcher block top is made from 1 $\frac{3}{4}$ " thick hardwood with a durable satin finish. Try getting that from an office furniture company.

ABOVE: Our drawers are made for student life. They feature full extension, full-height sidewalls and flush handles that don't catch clothes. Inside, there's ample room and the ability to customize with Lista's wide range of drawer subdividing accessories.

RIGHT: To students, personal space is everything. Lista workbenches provide the worksurface, storage area and lockable security they need in the classroom.

ABOVE: Lockable personal storage makes access to supplies and belongings quick and easy in the classroom or studio. In this configuration, three students each have a storage compartment in the top drawer for long tools; and a lower drawer for larger, bulkier storage.

RIGHT: Computers, printers and other electronics are an integral part of today's curriculum. So Lista integrates powerstrips into our storage and workplace solutions.

Let Lista take you on a tour of the campus.

You live in a world of changing courses, shifting class sizes and differing room requirements. Lista responds with adaptable, reusable, repurposable furniture and storage solutions. Our handsome designs bring a visual continuity and enhanced image throughout the campus. Students appreciate the professional appearance and actually treat Lista products with more respect. Take a tour of Lista's tough, industrial-grade capabilities in a variety of Art and Architecture school settings.

Architecture School Solutions

Student Workstations

Lista technical benches provide the ideal work area. Available with powerstrips, riser shelves and Nexus accessories, they put everything an architectural student needs within easy reach.

Classroom

In the classroom, Lista technical benches and worktables maximize space and student productivity.

Security

Storage and security are always on a student's mind. The Lista shelf cabinet with flush door and hinged lock bar is ready for a padlock. The counter top makes for an extra work area.

Storage

Flat files are a necessity for the budding architect. Lista stationary cabinets feature deep drawers with full extension for easy access.

Art School Solutions

Fashion Design

Lista heavy-duty worktables with mobile legs are the perfect accessory for the busy fashion design classroom. They're complemented by student benches and personal work areas that blend functionality and adaptability with style.

Printmaking

The printmaking department is where classroom furniture is truly tested. Lista heavy-duty workbenches with galvanized and stainless steel tops thrive in this ink and solvent environment. Add student lockers, expansive flat files and countertops, overhead cabinets and roller shelves for storing lithographic stones, and you've got a total solution.

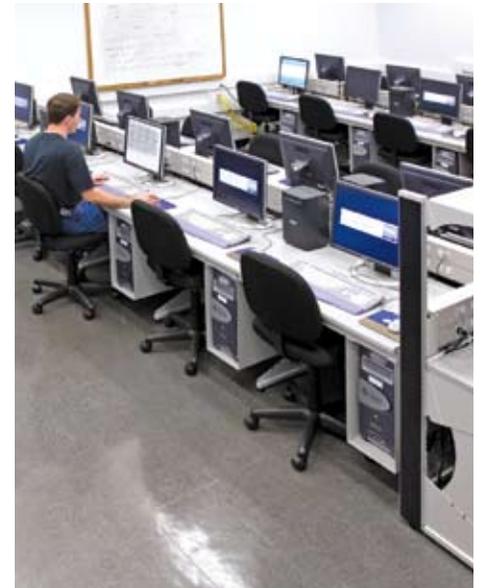

Only Lista solutions have such an impressive curriculum vitae.

You know the storage and workspace challenges facing your department. Now you know that Lista can provide custom-configured, integrated solutions. We understand the realities of the classroom and will work with you closely from design to delivery to installation. See how ListaWorks™ can work wonders for your Art or Architectural school.

Visual Communications

Media, typography, three-dimensional forms. The world of visual communications is both hands-on and digital. Lista brings them together with our heavy-duty worktables with electrical power access.

Photography

Today's photography starts with digital cameras and ends with Macs and specialized printers. Lista worktables with butcher block tops and electrical access provide the ideal creative space.

Faculty & Administration

Faculty, administration and support services love Lista as much as the students – for all of the same reasons. Contemporary flair meets maximum durability in the form of flat files, locker storage, mobile cabinets and worktables.

Sculpture & Ceramics

If classroom furniture has a natural enemy, it's probably the sculpture and ceramics studio. But clay, moisture and pounding are all in a day's work for Lista heavy-duty mobile worktables. Student lockers with tough countertops also stand up to the daily grind with ease.

ListaWorks™ Survey and Design Services

Our sales and design team is ready to provide ListaWorks™ for you free of charge. First, Lista listens. Then we collaborate with you to create a detailed, customized plan for your individual furniture and storage needs; one that offers solutions that maximize efficiency and flexibility while optimizing space, durability and aesthetics.

- **Customized Surveys and Layouts** – Lista experts will survey your current and future needs, then work with you to propose solutions that provide the greatest utility and adaptability.
- **Floorspace Utilization Analysis** – We will prepare, plan and create CAD and/or photorealistic renderings for a grouping of products or an entire room-size solution.
- **Integration with Architectural and Construction Planning** – You can rely on Lista's experience in coordinating with architectural and construction professionals at every stage of your project's development.
- **Price Quotes** – We provide free estimates and price quotes, regardless of size.
- **Demo Product** – Want to test drive a product on us? Contact our sales consultants to arrange for a demo product to be shipped to your site. We know once you compare our quality to the rest, you'll be convinced Lista is the right choice.

Let's get started. Give our Customer Service Department a call for more information on our competitive pricing, free demo cabinet program and iron-clad lifetime warranty.
