

**Amount of processing chemistry
that you'll use with Presstek's
chemistry-free CTP solutions.**

55 Executive Drive,
Hudson, NH 03051-4903 USA
www.presstek.com

Directions: Image, rinse with water, print.

It's that easy with Presstek's chemistry-free CTP solutions. After a simple water wash, Presstek's chemistry-free CTP plates are ready to print — no processing, baking or gumming required. Our proven thermal imaging delivers high resolution plates without process variables. And they deliver excellent on-press performance while improving overall pressroom performance. Automation options are available in a range of models to meet the needs of any size printer.

To see if Aurora Pro chemistry-free CTP plates can make your printing operation more environmentally-friendly, please visit www.presstek.com/chemistry-free.

Better yet, contact your local Presstek Account Executive Langford Meredith. **516-297-0693, lmeredith@presstek.com.**
