Jetrion

Give everyone their favorite flavor with full-color digital label printing.

Jetrion® 4000 UV Inkjet System

- High productivity, short run profitability
- Economical ink-only pricing versus expensive per-click costs
- Variable data printing capability
- Industry-leading color management using EFI Fiery/XF RIP
- Compatible with digital and analog finishing
- Reduced set-up time, substrate waste & plate costs
- Virtually unlimited label length

Come see the Jetrion® 4000 UV Inkjet System from EFI™ and discover how it can add more and more and more capabilities to your business.

9 – 11 September, Chicago
